

Masks And Glasses For Laser Welding

Protection devices to keep eyes safe from laser harm

Models

-  **Code**
LLNW00008
-  **Wavelength**
950-1100nm
-  **Optical Density**
OD8+@950-1100nm

Laser welding protective mask **LWM 01**

-  **Code**
LLNW00024
-  **Wavelength**
850-2000nm
-  **Optical Density**
OD6+@190-382nm
OD4+@855-896nm
OD5+@897-950nm
OD8+@951-2000nm

Laser welding protective mask **LWM 02**

-  **Code**
LLNW00025
-  **Wavelength**
190-400nm
800-1100nm
-  **Optical Density**
OD7+@190-400nm
&800-1100nm

Laser welding protective helmet **LWM 03**

-  **Code**
LLNW00007
-  **Wavelength**
190-450nm
800-1700nm
-  **Laser Fiber Type**
OD7+@962-1132nm

Laser welding protective glasses **LPG 01**

Maximum Protection
High Technology
Secured Performance

High and low temperature resistant.
Corrosion and flame resistant.
Protection against ultraviolet (UV)
and Infrared (IR) radiation.
Ergonomic design.
Effective protection.
